

## "Everything for the Pipeline"

[www.mtpipe.co.uk](http://www.mtpipe.co.uk)

At **M & T Pipeline Supplies** our aim is to provide a first class service with a wide range of materials at very competitive prices. Our range includes a variety of products not normally stocked by plumbing, building and engineering merchants. We pride ourselves on our ability to source materials to meet our client's specific or special requirements.

With a branch in the centre of Glasgow we are ideally located to service the central belt of Scotland but will gladly undertake to deliver anywhere within the UK with no minimum order charge.

Phone fax or email us for prices or use our website to obtain a quotation at [www.mtpipe.co.uk](http://www.mtpipe.co.uk)

### Mild Steel Tube

BS1387: Black, Red, Galvanized, Medium & Heavy weight, plain ended, screwed & grooved. APL51/ASTM A106

Grade B: Sch 10, 20, 40(std wt) 80 (xs) 160 (xxs)

### Stainless Steel Tube

NB Tube: Sch 10 to Sch 160, Welded or Seamless, material 304L & 316L Hygienic: Descaled & Polished, material 304L &

316L. Metric: Welded, Descaled, material 304L & 316L.

### MI & Mild Steel Fittings

A full range of George Fischer and Crane malleable iron fittings. Mild steel (Wrought Iron) fittings to

BS1740. BSP, NPT & Socket weld from 150lbs to 6000lbs. Kee Klamp type fittings for railings & guard rails.

### Valves

Crane, Peglar & Hattersley to name a few of the quality valves stocked in standard gate globe and check pattern, or for heating & chilled systems we stock a full range of Crane and Esbe regulating valves and orifice plates for precise flow control. Stainless steel two and three piece ball valves in threaded and welded patterns and also the same are available in carbon steel.

We also boast a range of steam control valves from Trauvay & Cauvan, safety valves from Armstrong, Nabic and pressure regulating valves from the experts such as Bailey Burkett and David Auld valves.

### Mild Steel Butt Weld Fittings & Flanges

A full range of weld fittings to both BS1640 & BS1965

Flanges: Slip On, Screwed, Blank, Plate, Socket Weld &

Weld Neck all available in BS10: Table D E F&H, : PN6, up to PN64, & ANSI B16.5: 150lbs > 900lbs

### Stainless Steel Fittings, Flanges & Valves

Full range of fittings and flanges for NB, Hygienic and Metric in 304L & 316L. Valves: Butterfly, Ball, Non Return, Diaphragm,

Gate, Mix proof, Manual or Actuated

### Grooved Pipework Systems

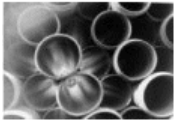

Full range of grooved end fittings manufactured for fire protection and mechanical services.

Painted, Galvanized & Stainless Steel.

## Plastic Tubes

uPVC: Class C D E and 7, ABS: C D E and 7. Poly/Prop: PN2.5 up to PN16, PE: PN10 & PN16, PVDF & PVDF-HP PTFE PEEK All

available in imperial and metric sizes.

## Plastic Fittings & Valves

Full range of fittings, solvent socket, threaded, butt fusion and socket weld Valves: Ball, diaphragm, non-return &

butterfly. Manual, electrically & pneumatically Actuated flowmeasuring, flow control signaling and limit switching, batch control and variable area flow metres.

## Copper Tube & Fittings

Bs 2871 Copper tube in table X,Y, Mechanical tubes tables 5,6,7, degreased capped and bagged for hygienic applications Also micro

bore in plain and plastic sleeved. For refrigeration, gas transfer hydraulics and general heating requirements.

## Hep 2o & Speedfit

Pipe, barrier pipe and fittings for both Hep 2o and John Guest Speedfit fittings for all flexible plumbing requirements

## Pipe Hanging Systems

A full selection of pipe hangers ranging from plain and slotted channel to most pipe hanging equipment single & double pipe clips in both lined and unlined also specialist pipe rings (wooden lined) for chilled water applications covering both imperial and metric pipe sizes. Pipe hangers are available in various materials ( mild steel, mall iron Steel Steel and also for copper and industrial plastics applications ).

## Pipe & Fittings Accessories

A full range of pipe fitting sundries for all types of pipe jointing and fitting. Gaskets nuts & bolts jointing compounds flux and solder.

Fixings and hand tools to get the job done.

## Pumps and pump controls

Ranging from grey water submersible pumps to batch dosing pumps for use in the water treatment Industry. Centrifugal and end suction pumps for large volume usage and including hygienic st/st pumpsfor the distillery, paper and pharmaceutical industries. Along with control systems for hi / low level controlor alarm situations, offering full BMS panel options.

## Services

With pipe threading, grooving, and cutting facilities at hand we can offer a service which can be delivered throughout Scotland
